

PRESS RELEASE

FFSG: Guillaume Cizeron returns to competition with Laurence Fournier Beaudry!

Paris, March 2, 2025 - The Fédération Française des Sports de Glace (FFSG) is delighted to announce the creation of a new ice dance couple, bringing together the talented Laurence Fournier Beaudry, 2023 Canadian champion and Grand Prix gold medallist, and Olympic champion and five-time world champion Guillaume Cizeron.

This bold project was made possible thanks to the mobilization of the FFSG and the Direction Technique Nationale (DTN), who accompanied Guillaume Cizeron and Laurence Fournier Beaudry from the initial contacts through to the materialization of their partnership.

FFSG President, Gwenaëlle Noury, commented: *“Since 2020, the FFSG has been committed to renewal and performance. The formation of this new duo bears witness to our desire to support ambitious projects and prepare the future of French skating.”*

This unprecedented sporting challenge brings together two of the world’s greatest skating talents. Their ambition is not only to make France shine at the Milan Cortina Olympic Games in 2026, but also to inspire the next generation of skaters and make their contribution to French sport and culture.

The FFSG would like to thank the Agence Nationale du Sport (ANS), its main performance partner, for its unfailing support in developing projects of excellence. This partnership is essential to accompany our athletes to the highest summits of international competition, particularly in view of upcoming major events such as the “Alps 2030” Olympic Winter Games.

Together, Guillaume Cizeron and Laurence Fournier Beaudry embody the renewal and ambition of French figure skating, supported by a federation in the throes of transformation and resolutely focused on the future. This new alliance marks a decisive step in the trajectory of French ice dance. Their objective is clear: to excel at the highest level, push back their limits and place their duo among the world’s elite with a view to the next major national and international events.
